

SUMMARY OF NEW FINDINGS OF THE DOCTORAL THESIS

1. Thesis Title: *Digital transformation and the development of new productive forces in agriculture in Hai Phong City today.*

2. Major: Philosophy

3. Code: 9229001

4. PhD Candidate: Pham Thi Phuong Thanh

5. Supervisors: - Associate Professor, PhD. Pham Minh Son

- PhD. Pham Xuan Thien

6. Training Institution: Academy of Journalism and Communication

7. New Findings of the Thesis:

First, the thesis systematizes and clarifies the general theoretical foundations regarding digital transformation and the development of new productive forces in agriculture in Hai Phong city today. It analyzes the role, importance, and influencing factors, and proposes fundamental solutions to accelerate digital transformation alongside the development of new productive forces in the agricultural sector of Hai Phong city today.

Second, it provides an objective analysis and evaluation of the current state of the research topic, thereby highlighting the causes of success as well as the limitations to be overcome, and identifying the emerging issues of digital transformation in relation to the development of new productive forces in agriculture in Hai Phong city today.

Third, it establishes a system of feasible and effective solutions to promote digital transformation and the development of new productive forces in agriculture

in Hai Phong city in particular, contributing to the socio-economic development of Vietnam in general, meeting the development requirements of the new era.
